

Protect your school from **Cyber Crimes.**

With the increasing reliance on technology, your school is also becoming more exposed to cyber threats. Your school's system could become compromised due to small vulnerabilities, like a weak password or a student or staff member accidentally downloading an infected email attachment.

Ransomware

Leading cyber threat to K-12 schools

Phishing

Breaches

Cyber Security Insurance for K-12 Schools

Provides broad financial protection and assistance during a cyber attack!

-  Covers extortion payments to unblock your system or to prevent hackers from releasing student and staff personal data.
-  Covers legal expenses due to lawsuits from third parties, parents, or staff.
-  Covers the cost of credit monitoring for breached individuals.
-  State and federal fines and penalties, IT forensic investigation, and breach notification costs.
-  Recovery costs to bring the system back to a safe state.
(Replacing hardware, fixing system failures and lockouts, or data recovery)
-  Guidance to increase security to lower your risk, 24/7 policy access, expert help, and tools to respond to an attack.

Cyber attacks on K-12 schools are increasing and could **cost your school millions of dollars** if left uninsured. Even though you can't prevent every attempt, **you CAN secure the best outcome for your school with trusted protection.**
